

## ANTI-MICROBIAL TECHNOLOGY

Milliken BioSmart™ 152104 and 153074

### Typical Finished Garments: Medical Scrubs, Lab Coats and Privacy Curtains

- Milliken patented textile technology binds chlorine to the fabric surface
- Technology recharges after every wash with EPA-registered chlorine bleach
- Chlorine bleach kills 99.9%\* of many common bacteria and viruses
- Passed ISO skin irritation testing and skin sensitization testing
- Durable through a minimum of 75 industrial and home washes
- Can be used for other common medical garments and products

\* When washed according to the EPA registered care label instructions. Tested in laboratory conditions using AATCC 100 test method. Do not use color safe bleach.

**BIOSMART TECHNOLOGY CAN BE APPLIED TO OTHER POLY-COTTON AND COTTON RICH BLENDS.**
